

Gravel Hill Cemetery

AEC #14

Photo not available at this time.

Size: Less than 25 graves

Location: In a restricted area about a quarter mile east of the Tower Shielding Facility, near the former location of the Gravel Hill School. On the east side of an old road and about 200 feet north of the remains of the old log Gravel Hill Methodist Church. Reached by a road east from White Wing Road, through a security gate north of White Wing Bridge. On Tract A-58, from M. J. Atchley, or Tract A-57, from the Methodist Church.

A barbed-wire fence enclosed this small cemetery, and there were no grave markers inside the fence. There was the remains of a log gravehouse large enough to enclosed two graves, but there were no markers of any kind inside. The roof and rafters had caved in, with the walls still standing.

***2008 Update** - Cemetery on DOE land.
