

Elkins Cemetery

(AEC #46)

Size: Unknown # of graves

Location: Located about 1,200 feet southeast of the railroad crossing on Emory Valley Road, about 1,500 feet southeast of the Brummett Cemetery. On Tract D-358, from B. S. Elkins.

This very small cemetery had the remains of a fence around it, with not identifying sign. There were no grave markers or any kind, and no visible depressions or other indications of graves. There is a large "blazed" tree just outside the fence on the east side. This cemetery is not far north of the old road with ran from Lupton to Union Valley Road.
